

PÖYRY PLC Press release 3 September 2009 at 9.45 a.m.

PÖYRY AWARDED SERVICES CONTRACTS FOR NEW 380 KV SUBSTATION IN AUSTRIA

Pöyry has been awarded two contracts by the Austrian transmission grid operator Austrian Power Grid GmbH, a subsidiary of Verbund, for the implementation of the new 380 kV substation "Salzach Neu". The total value of the contracts amounts to about EUR 4 million.

The scope of work comprises detail design engineering, project management and installation of the high voltage switchgear as well as the supply of all necessary AC/DC auxiliary supplies. The project will start in September 2009 and shall be completed by end of 2010.

Pöyry is a global expert in consulting and engineering. We offer our clients in-depth industry expertise, innovative solutions and lifecycle engagement. Our knowledge extends across hydropower, oil and gas, power and heat, renewable energy, pulp and paper industry, chemical process industry, transportation, water and environment, and construction services. We have about 7000 experts at our service in 49 countries.
