Pöyry awarded contract for the rehabilitation of various emergency power supply systems in Austria

PÖYRY PLC Press release 15 August 2011 at 1.00 p.m.

Pöyry's Energy business group has been awarded a framework contract by the Austrian transmission system operator Austrian Power Grid AG, for the rehabilitation of various emergency power supply systems.

The scope of work comprises detail design engineering, project management, construction and installation services as well as the supply of equipment. Dismantling of the existing equipment and installation of the new emergency power systems will be realised in stages in close cooperation with the client. The project was started in July 2011 and it will be completed by the end of 2015. The overall value for Pöyry is expected to amount to approximately EUR 6.1 million.
